

No Rinse Floor Cleaner Product Information

Enzyme Wizard No Rinse Floor Cleaner is an Industrial strength cleaner for hard surfaces in restaurants.

- Contains a proprietary soap-free multi-enzyme formula designed to break down grease, oil, and food waste. Rather than merely pushing the soil around with soap, the multi-enzyme formula destroys the grease and grime.
- Naturally lifts grease from grout lines
- Eliminates odours by destroying the organic matter. It does not just mask odours!
- No Deck Brushing! Mop & Go!!!
- Designed to discharge down the drain where the enzyme formula will continue to attack the grease and food waste- septic safe.
- pH neutral, non-corrosive and safe for all surfaces not harmed by water.

What's innovative about the No Rinse Floor Cleaner?

Organic Multi Function Enzyme
The Benefits of Adding a Multi-Enzyme Solution:

- A more sustainable cleaner. Enzymes are readily biodegradable.
- Support for the "compaction" trend. Low volumes of enzymes are required to replace high-volume ingredients such as surfactants and builders.
- Improved performance. The synergistic effect of combining several enzymes results in improved stain removal and overall floor cleaning beyond what single enzymes and traditional surfactants can achieve.
- Energy-efficient product. Enzymes work well even at low temperatures, allowing wash temperature reductions and thereby energy savings.
- Enzyme cleaners are naturally occurring elements so they are "Planet-Safe."

NO RINSE FLOOR CLEANER

MOP and GO! floor cleaner that saves time - no rinsing required.

kitchen floors, tiles, lino, concrete, wooden floors, dining areas, patios & entry ways, bathrooms, unsealed tiles.

The enzymes in our No Rinse Floor Cleaner break down stains & odours into their basic elements. Carbon, hydrogen and other elements readily integrate with the environment instead of polluting it. Even mineral buildups simply fall apart when our enzymes break down the organic 'glue' that holds it in place.

Complete Ingredients: Water, Enzyme Wizard enzymes blended from plants, surfactant and fragrance.

Enzymes - Nature's Toughest Cleaner

No Rinse Floor Cleaner

How to Use:

1. Dilute the product at a ratio of 100:1
2. Measure out 100ml and pour into 10L bucket of water
3. If one fills 10L bucket half full, use: 50ml
4. Make sure to use new mop head to avoid streaking.
5. Wet mop head as you normally would.
6. When squeezing out mop head, leave mop head wet.
7. Mop floor as you usually would, leaving a thin layer of solution - this will allow the enzymes to work at their best.

Start mopping at farthest point from left to right door working back towards door.

A = Rinse mop in bucket and then carry on

Important Information:

- Ensure that when changing over to the No Rinse floor cleaner use a new mop and bucket.
- One can use either a string mop or a flat head micro fiber mop. Better results are achieved with a flat head micro fiber mop.
- When first starting with No Rinse Floor Cleaner, one can either high pressure wash floor and then start mopping or one can just start with mopping the floor straight away. With standard mopping, results will occur after a day or two
- After mopping, rinse mop and stand mop upright in cupboard. Enzymes will carry on working and stop the mop from smelling.
- Do not mix No Rinse floor cleaner with other chemicals as this will deactivate the enzymes.

What is Global GreenTag?

Global GreenTag is one of the world's most robust, trusted, and widely recognised eco-labels. They independently assure that every product is fitness tested and certified under their leading certification programs that use the world's best scientific methods.

EW achieved the highest level of GreenTag accreditation – PLATINUM & HEALTH RATE - PLATINUM

Why is the Global GreenTag certification important?

For Enzyme Wizard, it's important for us to join a growing list of leading manufacturers dedicated to the business of creating healthy and sustainable products and who submit our product claims to undergo robust, third-party product certification with Global GreenTag.

Having this third-party verification backs up our claims that we have Australia's #1 safest and most environmentally friendly cleaning products.

Safer Floors

Slip Co-efficient Results

No Rinse Floor Cleaner improves surface friction for floors, creating better grip and less slip. This multi-enzymatic formulation continues to break down dirt layers long after the mopping has stopped. In fact, users are amazed at the way heavily soiled tile grout lines continue to be restored after initial treatments. Once grease-layered slippery floors suddenly have improved traction, which helps protect against falls and injuries. In some instances, a facility can qualify for reduced liability insurance premiums due to the significant reduction in falls, injuries, and workman compensation claims.
