

UP & OUT

Carpet Pre-spray Powder

Product

- ✓ Economical powder that easily dissolves
- ✓ Safe on all fibre types
- ✓ Self-neutralising to pH 8.50 on the carpet
- ✓ Highly concentrated formulation compared to liquids
- ✓ Leaves behind a fresh lemon scent

Carpet pre-spray powder that delivers a brilliant clean. It is extremely effective on stains caused by soft drinks, gravy, grass and vomit. For stubborn stains extend pre-spray soak time before rinsing. Add hot water to measured powder as per the product label and mix to dissolve. Suitable for use with pressure sprayers, truck mount machinery and in-line spray with 8:1 metered tip.

Technical

Colour	White
Odour	Lemon
pH	9.50 – 10.50 (1% solution)

Product Code	Outer Pack	APN
CHRC-217010 (10Kg)	1	9324828002635

Application

Task	Method	Dilution
Pre-spraying	<ol style="list-style-type: none">1. Vacuum carpet thoroughly and move furniture or place foil under legs.2. Prepare the pre-spray solution as directed.3. Pre-spray the carpet to be cleaned paying special attention to high traffic or heavily soiled areas. DO NOT saturate carpet however ensure carpet is consistently wet.4. Allow pre-spray to remain on the carpet for 3–5 minutes. Always work on a manageable area and DO NOT let pre-spray dry.5. Thoroughly extract the treated area with cold water	<p><u>Heavy soil:</u> 100g (up to 100 ml mark in a measuring cup) to each 8L of hot water</p> <p><u>Medium soil:</u> 75g (up to 75 ml mark in a measuring cup) to each 8L of hot water</p> <p><u>Normal soil:</u> 50g (up to 50 ml mark in a measuring cup) to each 8L of hot water</p> <p>In tank: 1kg per 25L</p>

Note: Pre-spraying with UP & OUT solution at 60 to 90°C gives improved penetration into heavy soil and increases cleaning performance on grease and oil. Some truck mount operators automatically feed into the detergent line. Whilst this is not recommended, a stock solution can be fed into the venturi at level 2 or level 3 on purge control meter.
