

GYMCLEAN *Sports Floor Maintainer*

PRODUCT INFORMATION SHEET

DESCRIPTION:

GYMCLEAN is specifically formulated for the maintenance of timber floors that have been sealed with Peerless Pro Hydrothane or other sealed sports floor surfaces. **GYMCLEAN** is also suitable for wet cleaning of other flooring surfaces such as vinyl, slate, ceramic tile, terrazzo and concrete.

GYMCLEAN's unique emulsification action quickly wets out greasy soils providing a clean floor with minimum cleaning effort. **GYMCLEAN** does NOT contain any chemicals or solvents that will damage or have a detrimental effect on sealed timber or any surface not affected by water.

FEATURES AND BENEFITS:

- For maintenance of timber floors sealed with Peerless Pro Hydrothane or other sports floor surfaces.
- Suitable also, for wet cleaning of flooring surfaces e.g. Vinyl, slate, ceramic tile, terrazzo and concrete.
- No harsh chemicals or solvents to damage sealed timber or surfaces not affected by water.

TECHNICAL INFORMATION:

Appearance	Clear yellow liquid
Odor	Lemon
pH	8.0-9.0
Specific Gravity	1.029 ± 0.005
Percentage Volatiles	92.5 - 93.0%
Solubility in Water	Infinite

USE:

For Manual Cleaning Methods – (Mop & Bucket):

Dilute 1 part **GYMCLEAN** to 40 parts water. Or if heavy soiling is to be removed the dilution can be increased to 1 part **GYMCLEAN** to 20 parts water.

For use through an Auto Scrubber:

Dilute 1 part **GYMCLEAN** to 60 parts water in the auto scrubbers' solution tank.

Lesser dilutions can be used for lighter soiling.

NOTE: If necessary add Defoamer to recovery tank to depress foam and prevent premature cut off of vacuum protection devices.

SAFETY: Causes serious eye irritation.

Keep out of reach of children. Read label before use. Wash hands, face and all exposed skin thoroughly after handling. Wear protective clothing, gloves and eye/face protection.
