## Dishwashing Machine Detergent

- Highly Concentrated and Economical
- Anti-Scaling Agents
- Stabilised Chlorine Destainer
- Use with Automatic Dispensing Equipment

**K5** KITCHEN

Safe for food preparation areas

**Australian Made & Owned**

### MACHINE PLUS

Machine Plus is designed for use with automatic dispensing equipment and the mechanical washing of glassware, dishes and food equipment. It contains alkaline detergents combined with soil suspending agents, anti-scaling components and a stabilised chlorine destainer.

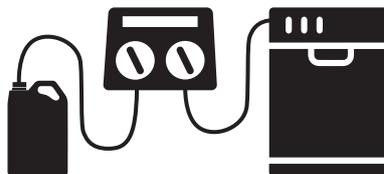

### FEATURES & BENEFITS

- Concentrated liquid - ensures economical dose rates.
- Contains anti-scaling agents - minimises the need to descale the dishwasher.
- Contains soil suspending agents - prevents redeposition of soils.
- Chlorine based - removes and controls all tannin and protein stains.

### DIRECTIONS FOR USE

Machine Plus is dosed automatically through the dispensing unit and maintained at a concentration of 1-2 gm/Litre.

Operating temperature is normally between 65-75°C. Machine Plus should always be used in conjunction with Rinse Plus (Rinse Aid) to ensure all washed articles are completely clean and dry.

### SUITABILITY OF CHEMICAL FOR FOOD PREPARATION AREAS

When used as directed Machine Plus is suitable for use in kitchens and food preparation areas.
