

NIL – ODOUR

ORGANIC ODOUR ELIMINATOR

DESCRIPTION

NIL - ODOUR is an all purpose organic odour eliminator that eradicates organically based odours including tobacco smoke and decomposing garbage by reacting with the odour causing molecules to form odourless and safe molecules.

ODOUR CONTROL

NIL - ODOUR convert toxic and offensive odours into safe and non-offensive molecules. This is achieved as **NIL - ODOUR** contains substances which have reactive groups available which readily react with the various toxic odours. By this means, new molecules are formed which do not have the toxicity and odour of the previous offensive ones.

PRODUCT BENEFITS

NIL - ODOUR is non-toxic, non-hazardous, non-flammable, extremely water miscible and biodegradable. It is non-staining and will show no adverse effects towards carpets, upholstery, curtains, mattresses, e.g. even with prolonged treatment.

APPLICATION

No special precautions necessary beyond normal good occupational work practice. Direct a few sprays toward the source of the odour. Wait until fragrance has disappeared. If the odour still remains after fragrance has disappeared repeat the process again. Continue until the troublesome odour has been eradicated.

NIL - ODOUR is completely safe. However it is not a personal spray nor should it be sprayed directly on to food or produce. It should be stored at temperatures less than 40°C under these conditions it has a shelf life of approximately 12 months.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre. PH 13 11 26. For eyes, irrigate with water for 15 minutes and seek medical advice.

PACKAGING

NIL - ODOUR is available in 750ml, 5, 15 and 25 litre containers.
