Lasts 60 Days

Anti-Splash Technology

Anti-Microbial Technology

RapidClean EKCOSCREEN Urinal Screens have sealed bristle technology which prevents splash-back and spread of disease-causing microbes caused by urine impacting the back wall or still water in a public urinal.

With the reduction of splash-back and our anti-microbial technology, a cleaner public restroom is achieved through eliminating the odour at the source rather than just masking a smell. The Ekco Urinal Screen lasts twice as long as other screens on the market and is perfect for water-less urinals.

Available Scents:

- Purple Berry
- Green Apple
- Orange Tropical
