

SPILLEX

SUPER-ABSORBING SPILL REMOVER

SpillEx is a disposable super absorbing floor cloth designed for fast spill removal of a wide range of water based liquids from hard floors e.g. blood in operation theatres, urine in elderly homes or to quickly remove soft drink spillages that may cause a slip risk in restaurants or supermarkets. SpillEx, the super absorbent spill remover ensures fast, safe removal of liquids before actual floor mopping takes place.

With SpillEx you have the most secure solution to absorb before cleaning. The spill remover absorbs 1.200 ml of water and up to 500 ml of NaCl 0.9%. Once absorbed, the liquid is converted into a gel, so it will not drip when lifting. No leaking fluids, no direct hand contact, no risk of soiling the bucket water with the spillage and therefore no risk of cross-contamination.

- Super absorbing disposable floor cloth
- For fast removal of a wide range of water based spillages from hard floors
- Bonds the liquid and contaminants safely in the cloth, no dripping
- No risk of soiling the bucket water with the spillage, no risk of crosscontamination

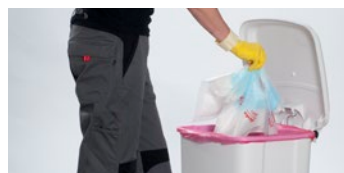

Simple as 1-2-3

Place SpillEx on the spillage, with the absorbent unprinted side down.

Wait until the spillage is completely soaked up by SpillEx. If the spillage area is bigger than the SpillEx – simply move and cover the remaining spillage area.

Pick up the used SpillEx and dispose of it.

SPILLEX

Code	146761
Weight	45 g
Size of cloth	51 x 37 cm
Total absorbency per cloth, tap water	1.2 L
Total absorbency per cloth, NaCl 0.9 %	0.5L
